- **Policies/Procedures:**
 - All auditions are to be recorded on cassette tapes or CD. You may use one tape/CD per section of instruments. (ie. You may put all saxes: alto, tenor, and bari on one tape/CD for the auditions)
 - Once the student is ready to play, you say the school, instrument, and student's name. (Example: "Los Lunas Middle School, Clarinet, John Doe"). Then the student can begin playing. Have them play the music in the order that it appears on the audition sheet (Chromatic scale, etude 1, then etude 2).
 - Once the audition has begun, the recording must not be turned off or paused. Students will be penalized if any audible clicks are detected on the recording. The audition must be straight through. If there is an unforeseen interruption, start again or just continue and finish. Exceptions for percussion are indicated below.
 - Include a typed (or a very legible handwritten) track list of the students names with the recordings
 - Bring audition tapes/CDs to audition site on the predetermined audition date. The auditions will be heard on that date.
 - All directors are expected to be present at the auditions.
 - Directors who do not participate in the audition process will not be allowed to have their students considered for the honor groups.
 - If you have made your recordings on a CD, please check to make sure the CD will play on a CD player, not just the computer. It would also be highly recommended for you to bring that CD player with you to the auditions so that if any problems occur with the CD, you will at least know it plays on your CD player. Music that has been received will be given out after the auditions.
- **Selection Committee**
 - All directors submitting recordings are members of the selection committee.
 - Directors submitting recordings must attend the selection meeting to submit those recordings.

- Exceptions will only be made for cases of a family emergency.
- The vice-presidents will assign two directors to listen to each section.
- Directors will score each audition independently and then combine their scores to rank the auditions.
- The directors will use a district HB Judging Form
- The final scores will be turned in to the band vice-president
- After auditions have been scored, a roster will be created and the top ranking students will be selected to create a balanced instrumentation
- Students will be seated in the order selected by the committee; there will be no additional chair test.
- Every attempt will be made to have every school represented by at least one student, without compromising the integrity of the honor ensemble.

4. Honor Band Audition Material:

- Middle School music is on a 3 year Cycle
- Mid-School audition music will include a chromatic scale of two octaves with the exception of Oboe and F Horn, which will be one and one-half octaves, and two etudes selected from a recognized band method.
- High School music is to be selected from All-State Small School Band audition material.
- High School audition music will include the chromatic scale (district approved ranges or substitute NM All-State ranges)
- Regarding percussion auditions: **both high school and middle school students must play all the music as provided.** For high school that includes: mallet chromatic scale, mallet etude, snare drum etude, timpani etude and the multi-percussion etude. **For middle school that includes: mallet chromatic scale, mallet etude, and the snare drum etude.** For both of the high school and middle school auditions, the recording must be continuous between the mallet chromatic scale and the mallet etude. The high school auditions must also have a continuous recording within the multi-percussion etude (i.e. no breaks between: triangle to tambourine to crash cymbals to bass drum, etc.). For both high school and middle school, the recording may be stopped after the mallet etude and after the snare drum etude. In addition, for high school the recording may also be stopped after the timpani etude. (Stopping the recording allows for time to move the recording device, if necessary).

B. Honor Choir Auditions

1. Honor Choir Festival/Site Host – Specific Responsibilities
2. Honor Choir VP Responsibilities

- Clinicians and accompanists must be selected and hired during the summer.
- Practice tracks need to be available to the choral directors at least six weeks before the event.

3. Honor Choir Participant Procedures

- **Registration/Selection Process-** Directors must provide the total number of students enrolled in choir at their school. This number must be provided no later than two weeks after the Fall meeting. Directors must provide the number of treble voices and the number of changed voices in their program. Honor choir numbers are based on percentages. These percentages allow programs to stay true to the honor of being able to participate in an honor group. (i.e. a bigger program will be allotted more students to participate and a smaller program will be allotted less students). However, if a program has a surplus of changed voices available, that program will be allowed to bring more students to help balance the sections.

Every attempt will be made to have every school represented by at least one student, without compromising the integrity of the honor ensemble festival

- **Memory Audition Process** – During the first two hours of the festival directors will host a memory audition and sectionals. Students will be allowed to use their sheet music for this process. A small group of students will be asked to step forward and sing their proper voice part as the directors listen for acceptable note/rhythm memory and accuracy. The large choir will continue to sing behind the small group that is auditioning. Students will repeat this process for all selected pieces. If a student is not prepared, they will be directed to the Choral VP for a second assessment. The Choral VP will then make the decision to send the student home or to sing with the choir. Students that don't have a ride back home may stay with their school but may not participate with the honor ensemble.
- **Ensemble Music Selection** - Honor ensemble music will be selected by the clinicians. Each director is responsible for ordering the selected repertoire in addition to the entry fee.
- **Practice Tracks** – Choir adds cost of practice CD's. \$30 per ensemble tracks (i.e. \$60 total if you have students participate in treble and mixed ensembles). If practice tracks are available through JWPepper, the tracks will be purchased and shared. The cost will be split between the participating schools.

After all auditions have been scored, the committee will meet to select the honor students using the rankings for each section.
- Students will be seated in the order selected by the committee; there will be no additional chair test.

- **Music**

- Honor Orchestra music will be selected by the orchestra teachers and made available on selection/audition day. The honor music must be selected two months prior to the selection/audition meeting in order for it to be ordered on time.

 - Honor Orchestra music that has been received will be given out after the auditions.
- **Auditions-** All auditions are to be recorded on CD or MP3. Each instrument should be recorded on a separate CD, or placed in a separate MP3 folder.
 - Once the student is ready to play, you say the school, instrument, and number order they are playing in. (Example: “Mountain View Middle School, violin # 1). Then the student can begin playing. Have them play the music in the order that it appears on the audition sheet (Scales, etude 1, then etude 2).
 - Once the audition has begun, the recording must not be turned off or paused. Students will be penalized if any audible clicks are detected on the recording. The audition must be straight through. If there is an unforeseen interruption, start again or just continue and finish.
 - Include a typed (or a very legible handwritten) list of the students as they appear on the CD/MP3. This helps with correct placement of personnel in the groups and correct spelling of the names for the program.

- Bring audition CDs/MP3s to audition site on the predetermined audition date. The auditions will be heard on that date. All directors are expected to be present at the auditions.
- If you have made your recordings on a CD, please check to make sure the CD will play on a CD player, not just the computer. 5. Band MPA Judges Information

• Stage Performance

- Evaluations by judges have an important place in making our festivals successful and in encouraging our students to improve. The critiques should be positive in nature, point out areas that need improvement, and give suggestions to bring about needed change.
- Judges should call attention to the potential of students and should praise areas of exceptional musicianship and teaching.
- **The judge should assign a numeric score for each sub category indicative of the performance and make enough written and/or aural comments to support the evaluation. The sub category scores are to be added up for an overall score, refer to the judging sheet for the score to rating conversion**
- Judges should keep in mind that the standard of performance cannot be that of a professional musician. A Class 6A performance should not be expected from a Class 1A school, nor should a Class 1A performance from a Class 6A be accepted as superior.
- There is no restriction on the number of 90 and above totals scores which may be earned. It is also not required that any 90 and above totals scores be given.
- Performance and sight-reading judges are to follow the established procedures as described by the section vice-presidents at the judges meeting prior to the start of the festival.

- **Sight Reading**

4. Choir MPA Sight Reading

- **Procedures for Sight-Reading**

- *Time.* A director of a choral group will be given 7 minutes to study the score and instruction.
- *Marking Music.* Neither the director nor the students may mark on the sight-reading music unless instructed to do so by a judge.
- *Instruction Period.* During the instruction, the group has the option to receive assistance from the accompanist by playing the octavo on the piano. The group may use the method of their choice to sing the UIL octavo. The director may instruct the group by talking about any passage of music (intervals, articulation, markings, dynamics, etc.), but may not hum, tap, sing or speak the words or solfege, or sing any part. Students may chant rhythms, chant words, chant solfege, or chant numbers. Students may sing their part aloud in sections or in a large group within their time frame.
- *First performance.* At the completion of the instruction period, choral groups may establish the key by using a scale (diatonic/pentatonic) and/or arpeggio for no longer than 30 seconds. At that time, students may utilize their preferred method of sight-reading (numbers, syllables, solfege, etc.) The accompanist will then give the starting pitches, which each section may sing, again utilizing their preferred method. The director may sing the starting pitch with each section. After the choir has sung its starting pitches, no further warm-up or further instruction of any kind is permitted by the director, including the use of verbal counting to initiate the reading. The selection will then be sung without piano accompaniment and using the group's preferred method of sight-reading. The director may choose to read the piece in the printed key or any other key suitable for the group. The director may conduct while the group is singing. Groups will be given 3 minutes to read through the sight-reading octavo. Groups may stop if needed and they may find an appropriate spot to begin and continue to sing through the piece.
- *Second Instruction Period.* Following the first reading, the director will have 3 minutes for instruction. The procedures described in the Instruction Period will apply.
- *Second Performance.* The procedures in First Performance will apply. The selection will then be sung a cappella. All groups may continue to use their preferred method of sight-reading or may sing the words printed in the score. The directors decision to use text will not have any bearing on the final rating. Both readings will be judged.
- *Disqualification.* A choral group whose director makes an obvious contribution to the performance by either singing with or speaking to the students or making other audible contributions while they are performing will be disqualified. An obvious attempt by the director to be disqualified may result in not receiving a rating. (A judge's decision of what is obvious is final.)

- **District VI Sight Reading Criteria**
 - Level 1 would be a start for everyone.
 - All groups would sing one minus voice part depending on what your group is singing majority on stage. (If you sing mostly SSA then your group would sing SA in sight reading) you could request something harder if you wish.
 - Directors may request to have the group sing in unison (especially recommended for middle school groups or beginners) Disclaimer: there is nothing available through UIL in unison. Director would communicate with students which part they would sing for the judge out of the SA octavo that is given.

- There is no restriction on the number of 90 and above totals scores which may be earned. It is also, not required that any 90 and above totals scores be given.
- Performance and sight-reading judges are to follow the established procedures as described by the section vice-presidents at the judges meeting prior to the start of the festival.
